

ASQ Global

ASQ supports members in more than 140 countries. As part of the Society's commitment to quality worldwide, ASQ Global was formed in 2008. Its goal is to provide professionals local access to professional development, credentials, knowledge, and information services, as well as a membership community. As champion of the quality movement, ASQ members are driven by a sense of responsibility to enrich their lives, to improve their workplaces and communities, and to make the world a better place by applying quality tools, techniques, and systems. ASQ Global is growing through National Service Centers and operations including:

ASQ China

ASQ opened its first global office in Beijing, China, in 2005. In 2007, ASQ opened another office in Shanghai. Relationships with the China Quality Association, Wuhan University, and other prominent organizations in China have been established to respond to the needs of people and organizations in order to increase awareness and use of quality techniques.

ASQ India

ASQ Global is currently working with the Federation of Indian Chambers of Commerce and Industry (FICCI) to promote quality in India. This cooperation is positioned to further strengthen ASQ's ability to provide an array of services, including training, membership, and certification, within India's growing quality community.

ASQ Mexico

ASQ Mexico opened its office in Mexico City in May 2009. By establishing greater visibility in Mexico, ASQ plans to help increase the use and impact of quality in response to Mexico's diverse needs. ASQ will engage, participate, and contribute to key national and local state forums, seminars, and conferences, specifically to increase awareness of quality methodologies and membership in the organization.
